A FABULOUS new phase of homes has just been launched at the ever-popular development of Bloomfield Annacotty. Offering first-time buyers the perfect opportunity to get that all important foot on the property ladder in a well established development, these homes ooze all the quality homeowners have come to expect from McInerney Homes.

Bloomfield boasts many features including its location in the heart of a thriving and well established community, it is close to a whole host of amenities including the University Arena, Storm Cinema and an excellent neighbourhood centre which includes a thriving pub, restaurant and shops.

These features have proved popular with young professionals and couples in the past and are sure to attract again.

There are two main types of prop-

erty on offer within this new phase. The three-bedroom semi-detached home stretches to 1,140 square foot and the new design includes an extended kitchen area and incorporates a utility room. The asking price for the three-bedroom semi-detached home is €250,000.

There are also townhouses available that extend to 968 square foot. The mid terrace townhouse comes on the market at €220,000, while the end of terrace property is €225,000.

Each house will come complete with a feature fireplace, fitted kitchen, wardrobes in each bedroom, tiles, carpets, heated towel rails in main bathroom and en suite, solid oak floors, fully painted and coming in the living room and hallway. At McInerney Homes we pride ourselves on offering a high quality product to our clients and this is none more evident than in

Bloomfield.

All homes have a B1 BER rating, have solar panels fitted, have digitally zoned heating systems with a 24/7 hour time clock and also have glass fronted gas-fire systems.

Homebuyers have the opportunity to see first-hand the impeccable design features that have been incorporated into this special development of luxurious homes. McInerney Homes have been building quality homes for a century. At Bloomfield, McInerney Homes have demonstrated, once again, why it is the country's largest home builder - imagination in design, attention to detail and uncompromising commitment to quality.
